# UNIMEX

## INTRODUCTION

The **Mark IX** is one of the most modern systems for TV Games. It is a series of TV Games made available with a main console and a variety of plug-in cartridges all compatible with the console. You can choose between many more-interesting games by simply changing cartridges with 1-10 games. There are Superstar (Sport) – 10 games, Tank Battle-one game, Stunt Cycle-4 games, Roadrace-2 games, Submarine-2 games, super Wipeout-4 games, Super Space, Rifle-4 games Cartridges etc.

## INSTALLATION

Schematic diagram refers to Figure 1.

1. Connect the batteries (UM1 X 6) into the batteries compartment in proper position as indicated, or plug in the adaptor refer to the section of technical data to external power Jack of game set. When using adaptor, battery power will automatically cut off.
2. Plug the Game Cord into the aerial socket of the TV set instead of the aerial plug.
3. Plug the selective cartridge into the edge connector of Game set.

4. Plug in the Player's controller into the Din Sockets of Game set.
5. Switch both TV and game sets power on.
6. Tune TV Set to correct channel (refer to the section of technical data.) It may be necessary to adjust the fine tuning, color contrast and brightness of your TV Set to get the clear and Pretty color Picture, but it may be slightly variated with different band of TV Set.
7. The **Mark IX** has its own loudspeaker for sound reproduction. Please set the TV volume control to the lowest value.

## SWITCH FUNCTION

1. Power On/Off – Main power switching
2. Switches of skill Selections – These skills will be determined by the specific game cartridge and will control speeds. Sizes and shapes of objects in any Particular game cartridge.
3. Game Selections – The number of games is determined by the cartridge.
4. Reset button – Reset the score to zero and start with the next game.

## TECHNICAL DATA

Operating Voltage	:	D.C. 9V
Power consumption	:	1W
Batteries	:	UM1 x 6
Adaptor	:	Voltage: D.C. 9V (3.5mm earphone plug, Center tip positive) Current: approx 150mA
Color System	:	PAL
Channel	:	V.H.F. ch4 (C.C.I.R.) [REDACTED]
Dimensions	:	89 x 198 x 280 mm (3½" x 7¾" x 11")
Weight	:	Master Console: approx 1000 g.
